### Notes:

1. Employment Rates: The employment rate is defined as the number of employed persons expressed as a percentage of the labour force where the labour force is those persons who were employed, or unemployed but looking for work. To determine employment rates of recent graduates, Ontario universities conducted a survey of all graduates of undergraduate degree programs. Graduates were asked questions regarding their employment situation six months and two years after graduation.

2. If the number of students in a cell is less than 5, the percentage figure was suppressed (\*). \* The employment rate was suppressed because the number of respondents was less than or equal to 5.

## K2A2 - Key Performance Indicators, Degree Completion Rate for Undergraduate Cohort, Fall 2002, New Year 1 Students

TYPE	Number of Students
1. New full-time year one undergraduate students	5,437
2. Total graduates	4,674

### Note:

Graduation Rates: The MTCU has calculated graduation rates using a single entering cohort of students and determining whether or not they graduated within seven years. The methodology employed involves the selection of all new full-time, Year One undergraduate students on the official Fall 2002 enrolment file, who have a valid (and unique) student ID number, and were seeking either a bachelors or first professional degree. The subset was then matched against the records for students who received a degree (in any program) from the same institution during the most current seven year period (2002 to 2009).

### K3 - Retention Rates, 2011

YEAR	Retention Rate
1. Year 1 to Year 2	92.8%

Retention rate: Report the percentage of first-time, full-time first year students in a given fall term who returned to the institution in the next fall term.
